- The meeting link above should automatically connect you to the meeting without the use of a meeting number or password. *NOTE - If you receive a message about installing or allowing the Cisco Webex add-on to your computer (or have trouble joining the meeting) please see the following pages for connecting your computer.*

Can't join the meeting? Contact support here: [tickets@azwater.gov](mailto:tickets@azwater.gov)

After you have joined the meeting the "Select Audio Connection" drop-down menu will then give you the option of using your phone or your computer for audio, as shown below.

- If you would like to use your computer to view the presented meeting materials and your telephone for the audio, use the "CALL ME" option for connecting your audio.
- If your computer has a microphone and speakers you may use these by selecting the "CALL USING COMPUTER" option. If you use this method, please do not call directly into the meeting using a telephone as this causes excessive noise and echoes because there are now 2 audio systems running through your computer.

**Use this if you are *only* joining by phone and not viewing the webinar:**
